Report on Oota From Thota – Kitchen Garden

Title	OFYT – Oota From Your Thota
Date of Event(s)	28/09/2018
Department/Association/Cell/Committee	Natures Club
Venue (Mention the platform if it is online)	Closed auditorium
Number of Participants	40
Target Audience	1 st Bcom A Students
Resource Person(s) with qualification (if applicable):	Ms. Vani Murthy

Nature Club organized first awareness program on Kitchen Garden on 28th September 2018 at St Francis De Sales College, Bengaluru. The session was handled by Mrs. Devichandrika, Mrs. Rani Ann James and Mrs. Thanapackiam

Growing your own fruits and vegetables will save your money at the grocery store. The fruits and vegetables growing your garden will promote health because they are rich in nutrients, especially in phytochemicals, anti-oxidants, vitamin C, vitamin A and folate 2) At Bengaluru, GCF started organizing the event 'OFYT-Oota from your Thota' (Food from your garden) since 2011 with a purpose to promote Organic Farming/Organic Terrace Gardening among urban dwellers, making available all gardening related materials in materials in one place along with knowhow St. Francis De Sales College determined Francis campus by promoting green cover. to bring an environmental change in the campus by promoting Green Cover. Advocating for the sustainable management of freshwater resources.

Natures club at St. Francis De Sales College enlightened the students on 28th September 2018, with the idea of advocating simple and effective ways of waste segregation and gardening through the able guidance of Ms. Vani Murthy, who was popularly called as Compost Queen. Students were introduced to her videos on composting and kitchen gardening. Her efforts to propagate waste segregation and maintain a terrace garden with wet waste compost, has inspired many students and were determined to create their own Kitchen Garden.

We all know problem for water in India. Water supply in India is expected to fall 50% below demand by 2030.

World Water Day is celebrated every year on March 22. It was instituted in the year 1993 to build public awareness and involvement in protecting water resources around the world. Today, billions of people are still living without safe water their households, schools, workplaces, farms and factories struggling to survive and thrive.

Environmental damage, together with climate change, is driving the water related crises we see around the world. Floods, drought and water pollution are all made worse by degraded vegetation, soil, rivers and lakes. When we neglect our ecosystems, we make it harder to provide everyone with the clean water we need to survive and thrive.

The main motto of this awareness program is to convey the importance of water and the problems we are going to face in future. St. Francis De Sales College being environmentally conscious to take all the measurements to save water by creating awareness to the students.

Promoting greenery in our surroundings is pivotal for numerous reasons. Green spaces offer a myriad of benefits, from purifying the air to enhancing mental well-being. They act as lungs for our cities, reducing pollution and providing habitats for diverse flora and fauna. Furthermore, green areas serve as spaces for recreation, relaxation, and social interaction. Encouraging greenery through initiatives like tree planting drives, urban gardening, and preservation of natural habitats is crucial for a sustainable and healthy future.

They also reduce the urban heat island effect, improving air quality and lowering temperatures in cities. Moreover, investing in green infrastructure such as parks, green roofs, and community gardens fosters biodiversity and supports ecosystems.

Encouraging individuals, communities, and governments to prioritize and expand green spaces is a vital step towards a healthier, more resilient planet.
