REPORT ON ICT 2018– 19 BENEFITS OF INTERNET

Date: 19th September, 2018

Venue: Computer LAB

Conducted By: BCA

Attended By: UG students BCA & BA

Organized By: Cyber Sprits

In light of creating an awareness to use internet search engines and tools for academic purpose, the college has taken special initiative to conduct various workshops and training sessions on ICT tools. St Francis de sales college organized a session on *Benefits of Internet*. The objective of the programme is to improve learning skills and to imbibe internet skills in the minds of the blooming graduates.

In the introductory session the resource person introduced internet and the top ways of using the internet to make it beneficial for both students and teachers, "The students who are the future of the country they must know some knowledge about how to use the internet in proper way. This internet 'www' world wide web connects everyone in this world. So people can able to be in touch with their dear ones. If we think about students, internet is so much essential. Study is most essential part of a student's life. So internet helps students to find out the solution of their problems. Math, science, history etc they can able to read and get materials also. There are so many sites which are providing free lectures also. It is also possible that they can able to download lectures from YouTube. Google the best search engine give so much knowledge to students through wiki".

Moreover, the resource person brought to limelight that "Presently many organizations give free e-learning classes for students, so students can easily study through internet. The big important thing is that now all competitive exams are conducted by internet only, so students can easily register for exam through online and can able to appear the exams too. And due to computerized results also get

faster than that of before. The students who are not able to get study material in the specific location like rural areas they can easily get it through online marketing systems. So many companies are there who are giving scope for online marketing so students can easily but books. Email is the best use in the students 'life. They can able to contact with others through email. In email they can able to get notifications for exams, date of exams, admit cards, etc. By using mobile internet, students can easily access internet anywhere and can able to clarify their doubts”.

Furthermore, the highlighted points were “They can use it for their career growth and gain knowledge. But some students make miss use of it for their entertainments, they are wasting their lot of time in social media. So it is not good for them. Parents must get notice about it and can help their children to avoid from unsocial work. It is responsible for a student to make the good use of internet so that they can able to make good growth. To develop a front end system that is both users friendly and easy to use or navigate, The front end system will be linked to a back end database which can be update online and have some functionality. Students benefited the activities conducted on Internet.

The session ended with a feedback session where the students participated actively. The college specially insists on use of ICT tools for both learning and teaching.
