Guidance for Competitive Examinations

How do I prepare for bank exam at home?

The **online banking/education institute** will make you aware of the pattern being followed in different sections, level of difficulty and your current status. To know 'Where do I stand?' is extremely crucial before you actually put in your time and efforts preparing for a competitive exam.

- Many other things such as-
- Expert Opinion
- Key Suggestions
- Important Topics
- Tips and Tricks to clear exam

Apart from this there are many other things which a expert faculty could help students with.

Slow and steady wins the race.

Once you're done with the analysis part you should then work on your basics and weaker points which you face.

A. Reasoning Aptitude

The topics like Syllogism, Machine Input Output, Puzzle Test, etc carry high weight-age as far as a IBPS PO exam is concerned and with 6 months in hand you can bring an absolute command over these topics provided you know the approach. Do not get worried about the verbal reasoning topics as they take only 1 or 2 months' preparation to gain command over.

B. Quantitative Aptitude

Learn Speed Maths tricks (Many of them are available on Youtube), do a lot of mental Math in everyday's life and make yourself able to calculate really fast.

Get an root understanding of chapters such as Simplification, Average, Percentage, Ratio, Profit and Loss and Data Interpretation. Once you become sure about the concepts and your ability to solve them fast try bringing command over other chapters.

C. English Language

For last few years the level of difficulty in this particular section has been increasing and to clear the cut-off you must be a good reader of English Language. Make a habit of reading different pieces of writings; News Articles, Journals, Magazines, etc. Besides, you'll to work on your grammar as well.

D. Computer Knowledge

You need not be a Computer wizard to clear this section just follow online computer section of your online institute and once you are done with its contents, practice a lot of sample questions either online or offline.

E. General Awareness

Preparing for this section seems most cumbersome to most of the students as one has to store a lot of events, dates, names in one's mind with daily happenings at National and International arena. But I would advise you not to do thorough study for this section as it will consume a lot of your precious time.
