Report on How to Crack Interview and Group Discussion

Date of Event(s)	:	2.6.2021
Department /Association	:	Commerce/ACME
Venue	:	Google Classroom
Number of Participants	:	80
Target Audience	:	III B. Com
Resource Person(s)with qualification	:	Asst. Prof. Bharti T

Objective: To boost confidence among students and get them understand how to perform in their interview and how to crack the group discussion conducted at the time of interview.

Introduction:

A session was held for 2nd year B.com., students on 2nd June 2021. The class activity was conducted under ACME. Mrs. Bharti T was called from the Department of Commerce to address the students. She started the session with a positive note on the importance of a group discussion and the way to participate in it. It is easy to acquire theoretical knowledge but one should know the techniques and art to crack a group discussion and the personal interview. And to make it to the final round i.e., the personal interview; it is the Group Discussion that will pave the way for it.

The session began with general views about group discussions of the audience. Later on, the speaker concentrated on the key points which are to be taken care of by the candidates participating in a group discussion. Often people tend to forget the things that they have heard but an example would always remain in mind. So, the speaker also followed a strategy which was: a team of 4 would be called and promptly a topic would be given to discuss. This helped the students not only to note the points to be considered while participating in a group discussion but also to watch out for all the minute things which the supervisor observes. The feedback of each team was initially given by the students and later on, the speaker gave her views. This made the students analyse the situation from both sides.

The key points which were asserted to keep in mind for every group discussion are as follows:

- Body language
- Confidence
- Listening skills
- Audibility
- Making the most of opportunities
- Think like a leader
- Where to look
- How to conclude
- Effective Communication

With the above key points, she also made many students speak, who had fear, and later gave them confidence and motivation.

Finally, the session was ended by a vote of thanks by Arun Julian Yesupriya – Class Representative.

In the end, students gained more knowledge. The activity was carried out successfully. There are interaction and collaboration among the students. Here students were able to learn from each other inputs. With this task, students will be able to engage themselves in conversation with partners and develop their confidence and communication skills.
