## A REPORT ON

### WORKSHOP ON PROTECTING INNOVATION THROUGH PATENTS

**Date:** 8 and 9 August, 2018

**Venue:** Business Lab

**Conducted By:** Research and IP Cell, St. Francis de Sales College

**Resource Person:** Mr. V. T. Madhurkar, Senior Advocate, M & M Partners

There has always been a need to nurture innovation and creativity. The need of the hour is to create an environment where creativity and innovation can thrive. The individual and the general public can benefit if Intellectual Property are protected. One of the ways of protecting Intellectual Property Rights is through patents. A patent is a form of intellectual property that gives its owner the legal right to exclude others from making, using, selling and importing an invention for a limited period of years, in exchange for publishing an enabling public disclosure of the invention. To create awareness about how to protect Intellectual Property, the Research and Intellectual Property (IP) cell of St. Francis de Sales College, Electronic City, Bangalore, organized a one-day workshop 'Protecting Innovations Through Patents' on 8 and 9 August, 2018.

The keynote address was delivered by Mr. V. T. Madhurkar, Senior Advocate, M & M Partners, an IPR law firm in Bangalore. M&M Advocates and Consultants is a legal association of expert Attorneys and Consultants based out of India with a practice that offers a complete range of legal Services in India and abroad. The resource person, Adv. Madhukar is an established lawyer and an expert in the field of Intellectual Property Rights and has thorough knowledge of the legal issues related to Intellectual Property Rights, especially, patents.

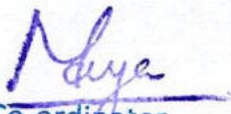

The programme started with a melodious invocation song. It was followed by the welcome address delivered by Dr. Nebula, Convener of the Research and IP Cell. The guest was felicitated by the Principal. The workshop focused on protecting innovation through patents. The resource person explained the different types of patents like utility patents, plant patent. Then, he described the process of obtaining patent protection. He also demonstrated on how to file a patent application. He asserted that patents are governed by a very technical area of law, which can be difficult for most people to understand without experience or training in patent law. So, at the end of the session, he shared his email id and the address of his IPR Law firm.

Adv. Madhukar urged the audience to send him queries regarding IPR or feel free to visit his office with prior appointment. It was a very informative session. The audience got a first-hand knowledge of how to protect innovation through patents. The session was followed by a question and answer session where the speaker answered the questions of the audience.

The workshop was attended by about 30 participants. The participants included faculty and students from various colleges across Bangalore. The vote of thanks was proposed by Prof. Maya, Coordinator of IQAC, SFS College.
