Report on 'A Session on Language Skills': 2019-20

Name of the Activity: 'A Session on Language Skills'

Date: 9th December, 2019.

Venue: Auditorium

Conducted by: Prof. Francis Lopez

Attended by: 1st, 2nd & 3rd year B.Com Students

Organized: Department of Commerce, SFS College

The department of Language of St. Francis de Sales College organized a session for improving language skills for all Semester B.Com Students on 9th December, 2019. Language is absolutely central to your learning: without it, you cannot make sense or communicate your understanding of the subject. It is very important to develop your language skills, especially your academic English, in order to work productively with other students. It was an interactive session by Prof. Francis Lopez as he addressed the importance of developing Language skills and also shared few activities which will help to improve Language skills. Listening, reading, speaking, and writing -- these are the four basic language skills. Prof. Francis Lopez started the session describing the language skills, listed objectives for the development of each skill, and gave guidelines and suggestions for classroom activities to give students practice.

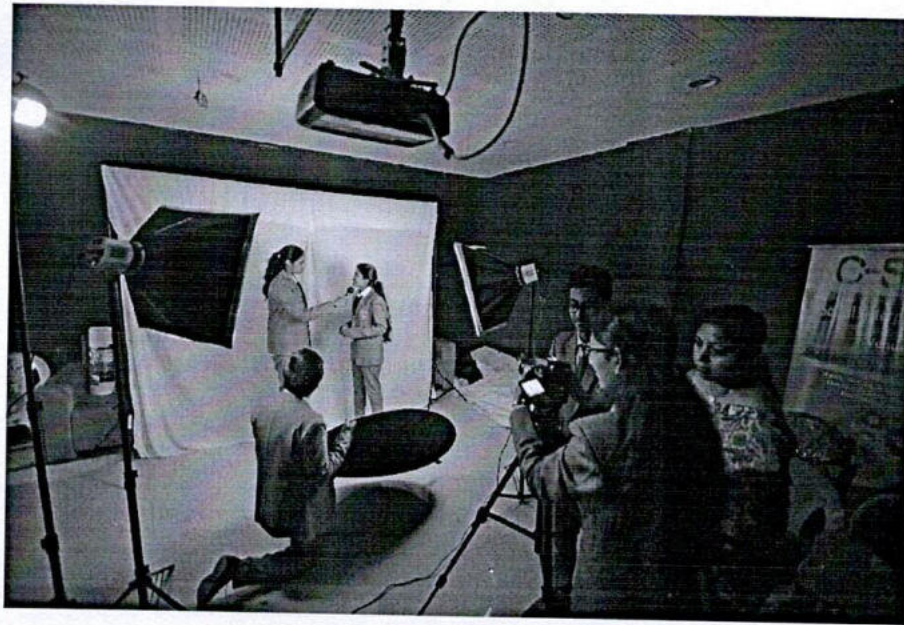

The students were divided into groups of 10 and word games like Scrabble, Pictionary were conducted. All the teams played well and gained a lot of insights on the importance of improving language skills. It was a very interesting session with many activities and all the students participated with great Zeal. The Objectives/outcomes of the session are as follows:

- To develop students' written expression of thought and provide learners opportunities to explore ideas and to build connections between content areas
- To develop students' oral communication skills by a variety of communication activities, from informal discussion to formal presentation.
- To develop students' reasoning abilities by incorporating reasoning tasks and practices into general education courses.
- To provide students with an approach to problem solving through logic and reasoning. It is used to identify, analyze, generalize and communicate quantitative relationships.
- To ensure that students are able to formulate a researchable question and can identify and utilize resources in order to document findings and draw conclusions.
- To ensure that students acquire a basic core of skills that is needed to research information with the use of information technology and critically evaluate that information.
