Date: 19th July, 2019
Venue: Kammasandra
Conducted By: CSA, St. Francis De Sales College
Attended By: CSA Volunteers, Prof. Geetha P.S
Organized By: St. Francis De Sales College.

19th July is celebrated as National Newspaper day, on that day, the Center for Social Action is conducted campaign in Kammasandra, Bangalore. This campaign is conducted under the motivation of Prof. Geetha. P.S. The aim of this campaign is conversion of newspapers into pencils. While campaigning the following key points were written on the colour chart paper:

- save approximately 16-17 trees from being shed to turned into wood pulp for pulp.
- safeguard about 60,000 liters of water from being used.
- save about 225KW hours of electricity.
- preserve landfill space of about 3.3 cubic yards.
- prevent the release of numerable greenhouse gases.
- prevent air and water pollution that ultimately affects the health of the people as well as deteriorates the environment.

Today's newspaper tomorrow waste paper to disprove this, the same newspaper is transferred into a recycled newspaper pencil and placed into the hands of the young and bright students.

The knowledge that is absolutely valuable and significant to be aware and conscious about the world around us. It is true that a good initiative will only attract positive energy. Just like our newspaper pencils will only send enlightening vibes to the user of the pencil.

These wonderful pencils consist of graphite that is covered in shredded newspaper. This newspaper covering acts as a strong, sturdy home for the pencil that is eco-friendly. Newspaper pencils are in fact one the major reasons that have brought out positive outcome by depleting paper waste.

These newspaper pencils are ideal for schools and other related institutions that are appropriate for children while carrying an eco-friendly factor in them. Thus, inculcating healthy and beneficial values both for them as well as their surroundings.

It is a perfect product that is fun, useful as well as sustainable to help children recognize and realize the ill effects of wastage and pollution caused due to paper. It's an enjoyable medium for them to learn significant life-long lessons that will empower future generations as well as the ecosystem. Our recycled newspaper pencils are also an impressive corporate gift.

Today we will be telling about something unique and innovative. We all talk about saving the environment and preventing trees from cutting down. But when it comes to applying the same thing in practical life most of us fail miserably. We all are aware of the fact that the pencils that we use in school and offices are made up of wood and we get this wood from cutting down trees. Recently, some of the pencils are made up of recycled newspaper and does not require cutting down of trees. This new academic season let us all pledge to ditch the conventional wood pencils and get our society to use these best newspaper pencils. The newspaper pencil culture should be grown among our society to avoid by cutting trees to make a wood pencil.

Thus, recycling newspapers today proves to be a sustainable and wise decision for the future and a win-win situation for both humans as well as the ecosystem.
