CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The Bangalore University gives the tentative Academic Calendar of Events before the start of the Academic Year. In accordance with this guideline, at St. Francis de Sales College, the Academic Calendar is carefully planned by the Academic Council and IQAC and notified in the Academic Calendar. This Calendar is uploaded on the College website, displayed on the College notice board for further reference and distributed to students. It contains the schedule of the Internal and Model Examinations, the dates for the submission of various assignments, seminars, projects as well as the dates regarding internships, National and International conferences, Guest Lectures and FDPs. Besides, the date schedule of sports and cultural events, field trips, student tours, industry-academia meets, Departmental and Institutional events find a place in the Calendar. The College follows the schedule laid out in the calendar strictly and organises all events. The Academic Council and the IQAC collaborate and prepare an effective timetable that enables students to participate in all academic, co-curricular and extra-curricular activities as well as facilitates the blended teaching-learning process. This Academic Schedule is uploaded to the software, which facilitates for further documentation. The Faculty prepares the lesson plan (Course Plan), having been given a clear mapping of the Programme Outcomes (PO) and Course Outcomes (CO). The optimum delivery of knowledge within the stipulated hours is ensured by following the lesson plans, Academic Year plans and maintaining the logbooks. The delivery of the curriculum is further supported by eminent academicians, corporate trainers and industrial experts who interact with students. A few days are allotted for the students to pursue projects and take up internships while the timetable allots time to gain hands-on practical experience of what they learn inside the classroom. Experiential learning is given emphasis by ensuring that every Department organises Industrial Visits, Internship Programs, along with orientations and training for placement opportunities. Regular feedbacks are taken from all the stakeholders with respect to the Curriculum, and the suggestions are communicated by the Faculty to the respective University Departments.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The mentoring system in the college has been very instrumental in inculcating positive attitude and discipline among students. The mentor plays a significant role in the holistic development of students in the campus. The role of the mentor includes: • To maintain the personal records of and personal contacts with students • To monitor the class attendance of the ward • To track the academic performance of the ward • To advise upon the demeanour of students in the campus • To guide students or refer them to the students' counsellor when it is required • To evaluate the students once a month at a convenient time • To submit the evaluation report to the Principal on the monthly basis • To meet the parents if required • To report regularly to the Principal on the group • To advise on developing their communication skills, specifically, encourage them to speak in English in the campus The mentor is responsible for the academic performance and personality development of the group

under his/her care. The mentor shall be a philosopher, guide, friend, counsellor and a teacher for his/her mentees. At St. Francis de Sales College, the Online Mentoring System acts as a platform where the transfer of knowledge and skills occur between teachers and students in the virtual mode. The teachers can clarify the subject related doubts to students, advise on the academic-related issues and suggest reference materials and the like. Once the modules are completed, the Online MCQ Test is conducted and their performance is assessed. This system reduces the workload of students as they have to just enter the required answers in turn, it enables the mentors to assess the kind of assistance that the students may need and help them improve their performance. Online Mentoring helps the mentors to give complete attention to every student studying under his/her mentorship. In order to achieve this, a rating system is also included using which mentors can easily evaluate and sort the performance of students and concentrate on those who need their guidance. This online mentoring system allows the mentors to dedicate more time whenever they wish and they can give more precise feedback that will help the students to deal with academic concerns and find solutions. Even when the students are not present in the campus, the teachers are accessible to solve any queries of the students online, through the POSTO APP. After the first exam, a Parent-Teachers Meeting (Sammilana) is conducted, generally, within a fortnight after the conclusion of exams. The details related to the performance and attendance of students is communicated to the parents. Students have to bring their parents without fail. The parents/guardians are encouraged to meet all the subject teachers and also the Principal if their ward's academic performance is not satisfactory. All the data pertaining to the students are confidential and it is accessible only to the mentors.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The College assesses the learning levels of the students after admission and organizes special programmes for advanced learners and slow learners. We have a streamlined mechanism for continuous monitoring and evaluation of the students' performance. The strategies adopted to facilitate the learning process for slow learners are as follows: Assessing from class tests and other areas of criteria, the Class Mentor identifies students who display weak performances. The Mentor assesses the nature of their problems and motivates them in a friendly way to achieve their academic goals. Remedial classes are conducted to clarify doubts, to re-explain certain critical topics, to facilitate the learning process of the students who participate in Sports, NSS and NCC activities. This practice helps the struggling learners to update their subject knowledge and helps them catch up with their peers. Appropriate counselling with additional teaching, eventually, helps the students to attend classes regularly. Student Online groups are created to discuss and deal with the syllabus and curriculum further and thus, the mentors help students in understanding concepts. Slow learners who find the classroom teaching inadequate are supported by way of the clarification of their doubts, revision of concepts and assigning of additional assignments to strengthen their learning. Advanced learners are identified through their performance in examinations, their interaction in the class room and laboratory, their fundamental knowledge, their understanding of concepts and their articulation abilities etc. Advanced learners are given special courses and encouraged to do paper presentations and research and the reference books are made available for the same. Special Eligibility Tests are conducted and students who perform well are given monetary scholarships, certificates and awards to encourage them and help them perform better. The institution promotes independent learning that contributes to their academic and personal growth. Performances in both exams - Internal Exam and Model Exam - are considered for calculating Internal Assessment Marks (IA Marks) comprising of 30/50 marks out of the total of 100/150 marks fixed by the of the Bangalore University Examination Board. After taking admission is completed in the First Year, Bridge Courses are organised wherein the subject teachers inform the students regarding the criteria and granting of the IA marks. Students are motivated and trained to perform well in their examinations. The IA marks are awarded on the basis of a slab system that

considers their attendance, seminar presentations, assignments and the internal exams. This ensures an objective provision of marks based on the overall performance of the students.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The institution adheres to the academic calendar for conducting CIE. Two months before the commencement of the academic year, a two-day academic meeting attended by the Principal, the Vice-Principal and all the HODs will be held. In that meeting, the induction programme for the freshers will be discussed. Following this meeting, a meeting with HODs will be held and the following issues will be discussed: subject allocation and the dates of 1st Internal Exams and Model Exams for both the semesters of the academic year. These examination dates will appear in the college handbook presented to all the students and the college will follow the schedule mentioned in the handbook.

The college may advance or postpone the exams only during inevitable circumstances. The institution informs the students and parents about the schedule of the Internal and External examinations in the beginning of the academic year. The students are reminded well in advance by their subject teachers about the date of exams. The teachers also inform them about the portion to be covered for each exam. The previous years' external and internal question papers are made available in the library for the purpose of students' reference. The time table is displayed on the main notice board and a circular is also issued to each class regarding the same towards the end of the semester. Immediately after the Model Exams, marks are tabulated and the IA Marks of the students are carefully prepared. The students are also consulted to find out errors of omission or commission. Thereafter, it is submitted to the HOD for his/her scrutiny and then, it is submitted to the administrative office. The latter displays the same on the main notice board of the college before the commencement of university exams. The students are free to enquire from teachers about any discrepancy in the marks awarded to them. The faculty members are expected to provide the reasons for giving the said marks. If students are not satisfied with the answer, they can report this matter to the HOD and/or the Principal. The examination and assessments are carried out in accordance with the set academic timetable. The answer scripts of internal assessments are shown to the students. These scripts are evaluated within a week of the day of the exam and the marks are communicated to the students in the classroom. Furthermore, the marks and the performance of the students are conveyed to the parents in the parents-teachers meet and via messages and emails too. The results are declared to understand the learning level of students. A Board of Examination (BOE) is constituted with faculty members from different departments and staff from the administrative office for the smooth conduct of examinations. The BOE consults the Principal to conduct exams systematically: seating arrangements, the preparation of exam time table, timings, the code of conduct to be followed by the students, the instructions for invigilators, the instructions for academic office and the like.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The College Student Council consists of the student representatives representing the students' community in the campus. This council plays a significant role in the governance of the College by way of sharing the students' concerns and grievances. The Council is also a forum for them to develop and demonstrate their leadership abilities. At St. Francis de Sales College, the Students' Council is elected every year to foster the talents of the students in the College as well as give them the opportunity to voice their concerns. The Student's Represented Body has two levels: Class Level Representatives and College Student Council. At the class level, class representatives among boys and girls, sports and cultural representative are elected. For the Student Council, the Chairperson, Secretary, Cultural and Sports Secretaries and their Deputies are elected. All elections take place with a democratic process. Various criteria including having a good academic

performance and no record of suspension or backlogs are considered in the election of the nominees. The nominations received are scrutinized by the Election Commission. The nominees for the Student Council are given an opportunity to present themselves to the entire student community with the "Meet the Candidate" program. The casting and counting of votes are done in the respective classes with the help of the Class Mentor and the returning officers. The final counting is done in the presence of the Principal, the Vice-Principal, the contestants and the returning officers, and the winners are announced by the Principal. The Student Council provides opportunities for students to engage in a participative partnership with the teachers, students and the management in the good functioning of the College. Regular meetings are held to discuss the progress, requirements and initiatives for the holistic growth of the College. The Student Council enhances communication between students, staff and the management, fosters an environment conducive to educational and personal development, promotes friendship and respect among pupils and represents the views of the students on matters of general concern. They assist in organizing and developing sports and cultural activities and organise events involving a wider community. Initiatives are also taken to organise events and programs with a social concern like outreach programs, adopting schools and villages, health drives etc. The Faculty Representative of the Student Council animates and guides the meetings, and constantly monitors the progress and contributions of the Student Council.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

The Alumni Meet of the association is a gathering of the graduated students of the institution and the institution feels proud of meeting its successful alumni during this meet. The alumni community shares their experience in the world outside the campus after their college days. This meet serves as a platform for the college to identify its most distinguished alumni. The Alumni Association of the College is named SFS AMIZADE ASSOCIATION, which is a Registered Body. The word Amizade is a Portuguese word which means "friendship". The association holds its annual meeting on the second Sunday of August every year (commemorating Friendship Day). It is a beautiful moment for them to relive their College days. It brings together the alumni from different walks of life. It always serves as a cherishable moment as the day brings back the memories of many college events and joyful moments experienced at St. Francis de Sales College. This provided an opportunity to meet their beloved friends and revered teachers and renew their fellowship. A formal event by the alumni committee members is organized. During the event, the college management and alumni share their memories. A review of the previous year's action plan and the goals achieved are also discussed. The alumni of the college pledge their continuous support to the institution during the meet. Elections for the various portfolios of the Association are held and members are elected by a formal process of voting. The elected members serve for one year and take up the duties of communicating with the Alumni and conducting activities for the Alumni and supporting their juniors. The Alumni also discusses the events to be conducted for the upcoming year. These programs include motivational talks, sponsorship for various causes, placement support, regular meetings, donations for the institution and networking and collaboration.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT**6.1 – Institutional Vision and Leadership**

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

DECENTRALISATION The IQAC worked on structuring the working system of the college. The college has around 70 Cells, Committees, Department Clubs and Associations. All these Cells, Committees, Department Clubs and Associations were structured under seven categories and coordinators were appointed for the seven categories. The coordinators were given the responsibility of organising various programs and coordinating the events conducted by the cell and committees under them. The coordinators were given complete freedom in coordinating the cells and committees and their leadership qualities were seen in the way they handled the affairs of their cells and committees. As a output of this process the institution saw a good number of programs organised.

PARTICIPATIVE MANAGEMENT The institution started with conducting skill development courses using the online mode at the beginning of the year. But as the pandemic set in the college has to adopt to the online mode and the transition took place within a week as the college faculty and students were already introduced to the blended mode of teaching. All the faculty and students immediately moved from offline teaching to online teaching. The teachers participated in various orientations on online teaching and took the responsibility on them to orient the students as well. As mentioned, the transition was smooth and classes were conducted regularly which benefited the students in a great way.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Admission of Students	Applications received from students are scrutinised and eligible students are called for counselling by the college. Pre- admission counselling is available for students to select their area of interest and select their courses. Admission of students is done on merit basis. The college encourages first generation learners and special

attention and counselling is given to such students. Various scholarships are available for the financially weak section of the students to encourage them to continue their studies.

Industry Interaction / Collaboration

7.1.2 – Environmental Consciousness and Sustainability/Alternate Energy initiatives such as:

Percentage of power requirement of the University met by the renewable energy sources

SFS always promotes renewable energy resources , in this context it has installed Solar panels for power generation for the whole campus, 12.5kWP capacity panels are installed which provide electricity through the main BESOM line , when BESCOM power goes only the required electrical points are having backup from the generator. Use of LED bulbs/ power efficient equipment, energy efficiency classrooms, auditoriums, corridors are equipped with LED lights and Sensor-based energy conservation for Street lights in the path ways which are exposed to open sky are solar lights we could effectively reduce the power consumption . There are 2 Biogas plants in the campus which provides cooking fuel for the hostel student college, and in house Mermerier bhavan. All the wet waste from the campus is sent for production of the biogas. Vegetable and dry waste is composted using composting unit. Recycling or resource recovery is a key attribute in waste management, and it is very easily feasible in case of paper. Paper wastes are sent to recycling plant to make eco-responsible products like paper made pencils (ITC MOU). E-waste or electronic and electrical waste is regularly collected from the campus and neighbouring institutions. College has signed an MOU with SAAHAS Zero waste NGO for recycling e-waste. Encouraging waste reduction will reduce the quantity of waste and efforts required for disposal. So, intensive awareness programmes were undertaken, and students were taught the best waste management practices. E-waste or Waste Electrical and Electronic Equipment (WEEE) are loosely discarded, surplus, obsolete, broken, electrical or electronic devices. Improper dismantling and processing of e-waste render it perilous to human health and our ecosystem. Therefore, at SFS, proper e-waste management has been realized. The e-waste management programme was initiated on 30th January 2019 in the Association of Electronics - IC Club. Dr. Sanjeev S., Head, Department of Electronics, Vijaya college, Jayanagar took a session on E-waste management programme in Business lab for the BSc students.

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

1. Conducting awareness programs on planting trees and water conservation. 2. Conducting campaign on the effects of using Plastic bottles. 3. March against Plastic Menace. 4. Seminar on An overview of the World Wetland. 5. Green Audit.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Practice:1 KNOWLEDGE EXCHANGE PROGRAM - It was initiated in the year 2018 which helps the students to share their knowledge in a particular field to others. This programme will help the students to gain practical knowledge in their area of studies. It will also aid in exchange of resources between various departments of the college supporting inter-departmental research and learning. Objectives 1. To combine the academic strengths of various departments of the college. 2. To add value to the professional development of the students and to develop collaborations. 3. To establish relationships amongst various disciplines of the college. 4. To make students understand the effect of working together as a team. 5. To provide opportunity to everyone who wants to prove themselves as expertise in a particular field. Practice KEP is a programme that the college adopts on a continuous basis for each semester. The terms of the programme are as follows: 1. Every semester a group of students will be selected from each department. 2. The topic for the programme will be related to the department which the students belong to. 3. It is compulsory for all the departments to come up with a particular topic every semester. 4. Students can prepare well on their topic with PPTs. 5. The students from all the departments will be the participants of the programme. 6. After the presentation of each department, the participants can ask the questions, if any, related to the topic. 7. The students who did the presentation should answer the queries. They can also take help of the faculties who guide them to answer (if required). Evidence of Success The programme had its start in the Postgraduate Centre and the students from the five departments of the Postgraduate Centre collaborated and presented papers on various topics. The presentations were helpful in understanding the concepts being spoken in an elaborate manner. The students gained confidence, expertise and technical knowledge through this programme. Practice 2: ONLINE WEDNESDAY SEMINAR Weekly

Seminar Presentation was initiated in 2013 to improve the presentation skill of the students. During the pandemic, the same practice was adopted online and the students were encouraged to use online mode of presentation for the Wednesday Seminar. Objectives 1. To help all the students in active participation in improving skills presentation and research skills. 2. To help in networking with others and renewing motivation and confidence. 3. To help the students to learn about the latest information and new skills related to the concerned subjects. 4. To provide an opportunity for students to interact with others from a specific field. 5. To get practical experience in developing communication skills. Practice It is in the practice of the institution that every Wednesday 6th hour in the timetable of all the departments is allocated for students' seminars apart from university subjects. The system is guided and monitored by the class coordinators. Topics will be distributed to the students well in advance by the faculty. Each and every student will be presenting their topics using PowerPoint presentations during the allotted time. As the pandemic set in, the practice was taken up in the online mode and the response from the students were overwhelming. Evidence of success Students from all the classes participated with interest and enthusiasm. Students have learned the skills of preparing PPTs and presenting in the online meetings and classes. Their research skills also was sharpened and they were able to learn new concepts and ideas because of these presentations. Their communication skills and confidence were boosted because of this practice.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

St Francis de Sales college with the vision to provide a centre of excellence for a holistic formation of the young who are capable of both transforming themselves and acting as catalysts of transformation in society, always believed in 'Improving agriculture Improves Lives'. With this noble intention to provide a helping hand to farmers who are the caretakers of the earth and motivate young minds to willingly shoulder the responsibility for building a just and humane society started the Desalite Farmers Friendly Association. Desalite Farmer friendly Association (DFFA) empower's the rural community by understanding their struggles and supporting them to understand modern practices and advanced methods in agriculture. 'Every single thought is like a seed. It needs to be sprouted with actions. A dormant seed would never become a giant tree', so to put these ideas in action SFS has Initiated Krishi Connect - an online Conference, to connect farmers. During the pandemic, the DFFA members attended the online conference on agriculture to equip themselves with the knowledge of agriculture in their pursuit to support the farmers. The conference had around 270 Young farmers, 7 Government Officials, 25 Industry Experts, 19 NGOs, 9 Educational Institution members. The conference paved a platform in continuation of the discussion about Self Sustainable Smart Village Revolution, and also discussed how to become a knowledge partner for a start-up team or receive assistance from knowledge partners. To become an implementation partner in the startup network or receive assistance from an implementation partner for products or services. It also explained how farmers can receive support and assistance to start or upscaling farming activity. It was an effort to join hands to collaborate and work together as a knowledge or an implementation partner for each other, to build a successful sustainable decentralized ecosystem. The Young Farmers conference 2020 was a 10 day conference, where framers had presented various techniques of latest farming

which included Organic farming, Multi crop farming, Natural Farming, Eco system, etc. Panel discussions on GIVE Ambassador Network Forum, Best Practices of Natural Farming had open up a lot of insights to the upcoming farmers. Mrs. Mangaiyakarasi, Head of the Department of Business Administration had an opportunity to share her knowledge in the conference regarding the natural farming trends and techniques. Around 25 students from our college participated in this conference organized by ESTAH, our partner in DFFA. DFFA members in association with Aspire (incubation center) started a venture called Farm to Kitchen where students buy organic and fresh vegetables from Farmers around and take it to the nearby apartment, connecting farmers and consumers during the academic year. BSc Electronics Students have come up with projects like moist control sensors to determine the moist level in the soil , and solar based pest control, which are affordable for farmers. The projects will help the farmers to a greater extent.
