# Il Semester M.Com. (FA) Examination, June/July 2018 (CBCS)

Paper - 2.7 : SC : BUSINESS RESEARCH METHODS

Time: 3 Hours

Max. Marks: 70

## SECTION - A

- Answer any seven sub-questions. Each sub-question carries two marks. (2x7=14)
  - a) What is cross tabulation?
  - b) Differentiate Type 1 and Type 2 error.
  - c) What is meant by Reliability?
  - d) What is cluster Analysis?
  - e) Explain with an example:
    - i) Extraneous variable
    - ii) Confounded relationship.
  - f) What is factor analysis?
  - g) Differentiate cross sectional from time series research.
  - h) Explain the validity and reliability of an instrument.
  - i) What do you mean by Empirical Research?
  - j) What is chapterization?

#### SECTION - B

Answer any 4 questions. Each question carries five marks.

 $(4 \times 5 = 20)$ 

- 2. Write a note on subjectivity and objectivity in research.
- 3. Briefly explain the Multivariate statistical techniques used in research.
- 4. Give your understanding of a good research design. Is single research design suitable for all studies? If not, why?

### PG - 519

泉

- 5. Discuss briefly various scaling techniques often used in business research.
- 6. What is validity of an instrument? How is validity different from reliability?
- 7. What is multiple regression and correlation? Elucidate.

#### SECTION - C

Answer any 3 out of 5 questions. Each question carries 12 marks.

(3×12=36)

- How do you identify the variables in research? Give a detailed account of measurement, scaling and construction of an instrument. Highlight the context in which they are suitably used.
- Give an evolutionary perspective of research in today's context and explain the role of theory in research.
- How will you differentiate descriptive statistics and inferential statistics?
  Describe the importance of statistical measures used to summarize survey research data.
- 11. XYZ Ltd. has 500 employees. A study is commissioned to measure their satisfaction level. A hypothesis is framed that the influencing factors namely salary and environmental factors.

Answer any 4 questions. Each question carries five marks.

- a) What are the variables to be studied?
- b) What type of analysis is suitable to conduct this study?
- c) Prepare a sample questionnaire for the same.
- 12. What is report writing? Discuss the importance of report writing.
