Objective:

- To make students understand about research opportunities at e-STORES GLOBAL
- To provide the students with an insight to the internal working of e-STORES GLOBAL
- To get a deep insight about courses offered at e-STORES GLOBAL

About virtual Industrial Visit:

A virtual industrial visit to e-STORES GLOBAL was organized by the Department of BCA to enhance student's knowledge on advance technology and to give an idea about which technology used in industries.

Students attended the virtual session at 3.00 PM, and were briefed by the Neha Saraogi about e-STORES GLOBAL and later Mr. Kashif Khan, Project Engineer, who took over the session briefed them about the organization and functions of e-STORES GLOBAL.

Mr. Kashif Khan, made a brief presentation about the lab facilities at e-STORES GLOBAL. He explained about the ethical hacking and recent topics of security in industry. He explained the difference between hacking and ethical hacking, and also motivated students to become a job giver rather than a job taker and talked about the importance of entrepreneurship.

He shared about his journey with the students and explored the number of technical terms such as sql-injection, denial of attack, cyber tools, email attacks and more. Also he said

Electronics City P.O., Bengaluru - 560 100

about the difference between academics and industry needs, and emphasized to fill the gap and prepare themselves for the industry. He outlined the various services which are given by e-STORES GLOBAL for both Government and private industrial organizations.

The session ended with a hearty thanks and question & answer. Students asked about their doubts regarding the topic discussed and also enquired about how to get an internship in e-STORES GLOBAL. Mr. Kashif Khan informed about the various courses that the organization will provide after their final year for students of BCA.
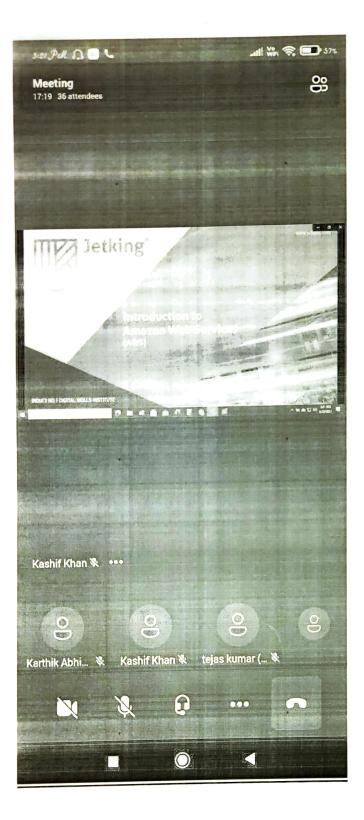

All the students were happy after getting enriched with the knowledge about cyber security and IT industry.
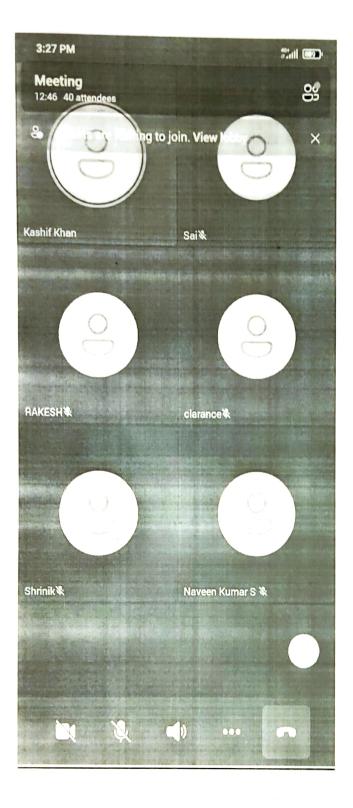

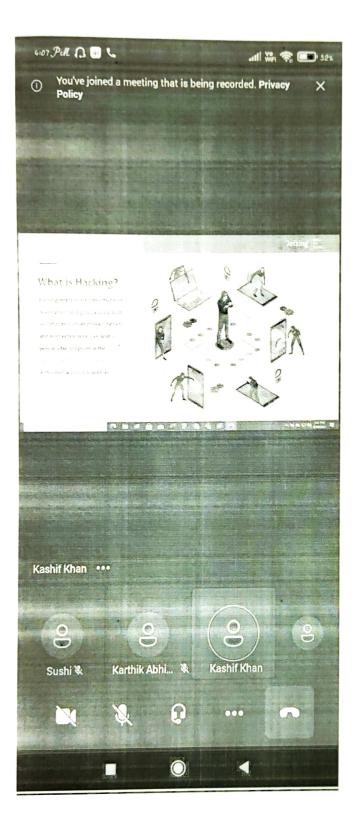

Outcome:

- They understood about research opportunities at e-STORES GLOBAL
- The students were able to understand the internal working of e-STORES GLOBAL
- They got a deep insight about courses offered at e-STORES GLOBAL

Virtual Industrial Visit

Today session was amazing especially the one I interest in Ethical Hacking. Every company that owns the system or network allows Cyber Security engineer especially to perform and identify potential data breaches and threats in a network. Ethical hackers aim to investigate the system or network for weak points that malicious hackers can exploits or destroy. On the other hand, when I saw today over all session was good, they also gave maximum 20 min for questioner session. Overall participant also good, audio, presentation, video quality was excellent excellent. These are the things I have learn from today session.
